Kronborg Chocolate

Kronborg Chocolate comes from a small Danish chocolate manufacturer, dating back to 1898. The recipes are more than one hundred years old, and all chocolate is made with respect of the old traditions. Nothing is machine made, all is made by hand, beginning with rolling the marzipan, shaping the pieces, cutting them - piece by piece - and ending with hand decor of each piece. Nothing is left to chance. Only the very best raw materials are put to use in making Kronborg chocolate. Needless to say that there is nothing artificial in the Chocolate, Nougat or the Marzipan. Kronborg chocolate is packed in sealed 100gr trays, each with 9 assorted chocolates.
